

Hot Days

What you need to know about hot days in kindergarten.

Sun Screen! Parents bring their children in the morning with sun screen on. We re-apply sun screen in the afternoon.

Drinking! Children bring water bottles every day. We refill them for the younger ones. Older ones are encouraged do refills themselves. The drinks are stored outside in the shady areas as much as possible. The children can reach the bottles themselves to drink when they are thirsty. We also remind children of all ages regularly to drink.

Hats! Please remember to pack a sun hat or baseball cap.

Snacks! Parents who send their children with snacks needing to be cooled, please put cool packs in the snack boxes and bags.

Outside Time! The colleagues decide on a daily basis when to play inside and when to play outside, balancing out the need of the children with the demands of the weather.

We ensure that the children are safe in the hot weather! Thank you for your trust in us!

We offer water play throughout the day!

If you would like your child to play in the water, please send a waterproof sports bag with your child's swimming gear in it.

Swimming Gear might include swim suits or swim shorts, towels or water shoes.

Write your child's name on the bag and on all gear!

Only children with swim suits or swim shorts can go into the water.

If you would prefer that your child does not play in the water, please do not send a bag. Then we know that water play is not allowed for your child.

Sometimes the water play turns into mud play. This is also exciting for your children, and we encourage the experience!

Parents, please bring a few extra minutes to pick your child up as he or she may be wet and need a clean up, dry off and clothing change before you head out. Thank you!
